To Whom It May Concern:

It is my pleasure to recommend Dan Scales, of D Scales Construction, as a fine, professional homebuilder.

In 2006, Dan built our custom home to our exact specifications. We loved living in our home for many years until we sold it in 2016 to downsize because of becoming empty-nesters.

Dan is a good listener and has an excellent mind for design. You will not be disappointed if you allow Dan to build your home.

Sincerely,

Paul Sheldon
